[a. F. *compiler*-r (14th c. in Godef.) to put together, collect; (commonly taken as) = L. *compilā-re* to plunder, pillage, rob, steal, snatch together and carry off.

The history is by no means clear. In reference to literary 'compiling', *compilator* was applied reproachfully by rivals to Vergil, and this is commonly taken as 'plunderer'; but Isidore (a. 640), in reference to this very circumstance, says 'Compilator, qui aliena dicta suis permiscet, sicut solent pigmentarii in pila diversa mixta contundere', where the etymological explanation 'to mix in a mortar', implies at least that no sense of 'plunder' any longer attached to the word. In med. L. Du Cange has *compilatus* = 'extructus', said of an arch; Godef. has OF. *compilē* = 'constructed, built', of a palace, which seem also to point to some other derivation. Cf. branch II. below.]

**Compliment** (kəm'plimənt), *s.* Also 7 *complyment*. [Adopted in end of 17th c. from F. *compliment*, 16th c. ad. It. *complimento*, 'expression of respect and civility to another by words or by acts'. The L. *complimentum*, Romanic *complimento*, became in OF. *complément* (*compliment*), in It. *compiamento*, with the original sense of 'filling

up, fulfilment, accomplishment'; in OCat. *complimento*, Sp. *cumplimiento*, there was a special development of use, as in the verb (see COMPLY), giving the sense 'observance or fulfilment of the requirements and forms of courtesy', which was adopted in It. in the form *complimento*, and thence passed into Fr. and Eng. *Compliment* is thus a doublet of COMPLEMENT (the form directly from Latin). The latter was in use in this sense about a century before the introduction of the French word, which slowly took its place between 1655 and 1715: see COMPLEMENT *s.v.* 9, where the earlier history of this sense may be seen; cf. also COMPLY.

H. L'Estrange's *complyment*, *compliment* (in sense 1, 1b), appear to have been formed for the nonce on COMPLY, before *compliment* was in Eng. use. Cf. Skinner, 1668-71 'compliment a Fr. compliment, It. *complimento*, hæc a verbo to comply, q.d. *complyments*'.

(From c.1700 to the present day nearly all editions of 16-17th c. works, whether re-issues of printed books or original editions from MS. (e.g. *Clarendon's History*, *Pepys' Diary*, *Letters of Dorothy Osborne*, etc.), systematically alter the original spelling *compliment* into *compliment*, as do also modern dictionaries in their alleged quotations; as only contemporary documents supply evidence as to the introduction of the French form.)

1. A ceremonial act or expression as a tribute of courtesy, 'usually understood to mean less than it declares' (J.); now, esp. a neatly-turned remark addressed to any one, implying or involving praise; but, also applied to a polite expression of praise or commendation in speaking of a person, or to any act taken as equivalent thereto: see the modern examples. In phrases, as *To pass, pay, make*, etc. a *compliment*. *To return the compliment*: to pay back compliment with compliment; to retaliate. *Chinese compliment*: see CHINESE.

**Complot** (kəmplot), sb. Now rare. In 6-plotte. [a. F. *complot*, 12th c. in Littré, in senses 'crowd, concourse, struggle', in 16th c. 'combined plan or design'. Of uncertain origin: see Diez and Littré. On the surface it looks like a compound of *com-*

and *plot*; but the latter does not occur in F. in a suitable sense (its ordinary meaning being 'block of wood', 14th c. in Godef.). Eng. *plot* in sense of *complot* is of about the same age, and perh. an abbreviation of this word.

In 16-17th c. poetry, *complot* and *complot* are used indifferently: Shaks. and Daniel have both. If *plot* was shortened from the word, it must have been from *complot*. This is the form recognized by Johnson; but 19th c. orthoepists in general have *complot*.

**Comply** (kəmplai), v. 1. Also 7-1e. [Appears first about 1600. In sense 1, it answers to L. *complere* to fill up, fulfil, accomplish, COMPLETE. This verb became in Romanic *complire*, whence It. *compiere*, *compiere*, Pr. and OF. *complir* (see COMPLISH), all in the original sense. But in OCat. *complir* or Sp. *cumplir*, the sense underwent the development 'to fill up, make up what is wanting, satisfy, satisfy the requirements or forms of courtesy' = *comply with*, in sense 2 below. In this latter sense, *compiere* appears to have been adopted in 16th c. Italian, by the side of the native *compiere* in the original sense; and the It. was evidently the immediate source of our sense 2. (In the same way the OCat. or Sp. form and sense of the derivative sb. *complimento*, *complimiento*, was the source of It. *complimento*, and so of the 16th c. F. *compliment*, and 17th c. Eng. COMPLIMENT.) As to the form of *comply* cf. SUPPLY (L. *supplere*, It. *supplire*, OF. *suppleier* (15th c. *suppleier*, *suppleier*), late ME. *supplie*, 15th c. *supple*, *supplie*, *supplie*). On the model of this, and with the same relation of form to L. *complere*, It. *compiere*, that *supply* bore to *supplere*, *supplire*, but without the same antecedent history, *comply* appears to have come into use in the end of the 16th c. (OF. *complir* was by that time obsolete.) In the sense-development in English there has been a tendency to association with *PLY*, Fr. *plier*, L. *plicare* to bend, so as to make 'bending to the will of another' a more prominent part of the notion: cf. esp. COMPLAINT.]

¶ The following misuse of the word inserted by Kersey in his ed. of Phillips, 1706, has been copied from Dictionary to Dictionary ever since; in some it is even given to the exclusion of the correct meaning. From Kersey it was adopted also by Giles Jacob in his *New Law Dict.*, 1729, and has been handed on by Tomlins, Wharton, etc.

[1676 PHILLIPS *App.* II, 'A Collection of such Affected Words from the *L.* or *Gr.* as are either to be used warily, and upon occasion only, or totally to be rejected as barbarous'), *Comprint*, to print another's Copy. 1706 — (ed. Kersey), To *Comprint* (*Law-Term*), this Word properly signifies to print together; but is commonly taken for the Deceitful Printing of another's Copy, or Book, by Stealth, to the prejudice of the rightful Proprietor. [Hence (with modifications) in Kersey 1707-21, BAILEY 1727-31, JOHNSON 1755-5, and recent Dictionaries.] 1729 G. JACOB *New Law Dict.*, *Comprint* intends a surreptitious printing of another Bookseller's Copy, to make Gain thereby, which is contrary to the Stat. 14 Car. II. c. 33, and other Statutes. 1. The action of clearing a man from a charge or accusation by the oaths of a number of others (called from its use in the Canon Law, *Purgatio canonica*); also, more generally, Clearing or purgation from a charge, vindication; evidence or testimony to this effect.

1568 PHILLIPS, *Compurgation*, a Term in Law, a justifying by Oath the report or Oath of another. 1755 in JOHNSON.] a 1670 HACKER *Abb. Williams* ii. (1692) 35 [He] was privileged . . from suspicion of Incontinency and needed no compurgation. 1828 BURNET *Hist. 1873 H. ROGERS *Orig. Bible* viii. 321 note, This fact is a sufficient compurgation from the charge.

2. *esp.* Applied by modern historians to the Old English mode of trial and purgation by means of the *æwdan* or *consacramentales*, then called *ðd-fultum*, 'oath-help' or 'oath-support' (in mod. Ger. *Eideshülfe*): see COMPURGATOR 1 b.

This mode of trial, so prevalent among the old Teutonic peoples, began to lose its importance as trial by jury and other processes came up in the 12th c., esp. after the Assize of Clarendon in 1166; but in privileged burghs, and in certain civil actions, e.g. for debt, it came down to modern times, being finally abolished only in 1833 by 2 & 3 Will. IV. c. 42 § 13. But the term compurgation was not known to the Common Law, where the technical name was *WAGER OF LAW*: the accused who claimed so to purge himself was said to *wage his law* (*wadiare legem suam*).

[1658-1755 see in 1.] 1839 KICUTTLEY *Hist. Eng.* i. 78 The oath of a King's thane in compurgation was equivalent to those of six *Coerls*. 1867 FREEMAN *Norm. **Compurgator** (kɔmpɜrgətɔr, kɔmpɜrgətɔr). Also 6 -our. [a. med.L. *compurgator*, or F. *compurgateur* (14th c. in Godef.), n. of action f. L. *compurgare* to purge completely; in medieval or modern times, app. taken as if from *com-* together with + *purgator* purger, clearer. (The second pronunciation is found in verse of 17-18th c.)]

1. A witness to character who swore along with the person accused, in order to the acquittal of the latter.

Originally a term of the Canon Law, appearing first, according to Du Cange, in the writings of Pope Innocent III (1198-1216), xvi. Ep. 158, and c. ix. and xiii. *de Purgatione Canonica*; it occurs in the *Corpus Juris Canonici*, in *Decret. Greg. IX.* (1227-41) v. tit. xxiv. c. v, vii. Earlier Latin names, referring to the laws of the Northern nations, were *Sacramentales* (Laws of Alemanni, Frisians, Longobards, etc.); *Consacramentales* (Capitula of Charlemagne, Laws of Chut, and of Hen. I, c. 64, 66, 67); *Sacramentarii* (Pope John VIII, 872, 882); *Juratores*, *Conjuratores* (Salle & Alem. Laws, etc., etc.). In England the term *compurgator* appears to have been used only in ecclesiastical law until the 17th and 18th c., when legal antiquaries and historians began to apply it retrospectively in sense 1 b.

a. In *Canon Law*, Applied to witnesses who either swore to the credibility of the accused when he purged himself by oath, or otherwise swore to his innocence or orthodoxy, so as to clear him from a charge.

[c. 1340 ANP. STRATFORD in Lyndewode *Const. Prov.* v. Tit. 14 Pro graviore scilicet ut pro Adulterio vel majori ultra duodecim manus Compurgatorum numerum non imponent.] 1533 MORE *Debell. I. 241) Where you take upon you... to purge yourself of papistry by me and Zuinglius, if you have no better compurgators than us two, you be like to fall in your purgation. 1641 *Terrus de la Ley* 195 When one shall wage his Law, He shall bring with him vi. viij. or xij. of his neighbours... to swear with him, much like unto the oath which they make which are used in the civil Law, to purge others of any crime laid against them, which are called compurgators. 1731 CHANDLER tr. *Limborch's Hist. Inquis.* II. 208. 1760 BURN *Ecl. Lat.* (1797) III. 276 By his own oath affirming his innocency, and the oaths of twelve compurgators as to the belief of it.

b. In reference to OE. times (and more generally to ancient Teutonic law), the usual term, with modern historians, for the 'oath-helpers' whom a person on trial was allowed to call in to swear that, to their belief, as neighbours of the accused and acquainted with his character, he was speaking truth in making oath of his innocence. Also, sometimes applied by modern legal writers to the same persons in Wager of Law.

A native name for the *consacramentales* (Ger. *eides-helfer*) is found only in the oldest Kentish Laws, viz. *æwda*, pl. *æwda* (*L. of Hloðhere* and *Eadric* 2, 4; *L. of Wiltred* 23) evidently a deriv. of *æwe* 'law'. Elsewhere they appear merely as 'his zeferan' his fellows, 'þa be him midstandð'. In OHG. *gieldo* (Hildeb. in Grimm) f. *eid* oath: cf. the latinized 'cum iudis suis' in Laws of the Longobards c. 364. The oath of the *æwdan* was 'On þone Drihten, se æð is clæne and unsmæne þe N. swör' (Schmid, *Gesetze* 406).

INNES *Scott. Mid. Ages* 183. 1876 FREEMAN *Norm. Conq.* v. xxiv. 452 The compurgators of our oldest law were not a jury in the modern sense, but they were one of the elements out of which the jury rose. 1881 19th Cent. 386 The compurgators were simply witnesses to character... but the effect of their unanimous declaration of belief in his innocence was precisely that of a verdict of 'not guilty' by a jury.

**Con** (kpn), *v.* 1. Forms: 1 *cunnan*, 2-5 *cunnen*, (*cune*), 3-6 *cunne*, 4-9 *cun*; also *kunne* (n, kun); also 4-6 *connen*, (*cone*), 4-7 *conne*, 6-*con*. See more fully under *CAN* *v.* 1. [In the verb *CAN* the original vowel of the infinitive, and of all parts of the present stem except 1st and 3rd sing. pres. indic., was *u*: thus Inf. *cunnan*, ME. *cunne*, n, *cun*; Ind. pres. 2nd sing. *cunne*, later *cunnest*, pl. *cunnon*, ME. *cunne* (n, *cun*; Conj. pres. *cunnen*, pl. *cunnen*; pr. pple. *cunmand*, ME. *-end*, *-ing*; vbl. sb. *cunning*. These *u* forms survived more or less all through the ME. period: see *CAN* *v.* 1 A.; but in accordance with the scribal practice of writing *o* for *u*, in contact with *n*, *u*, *u* (*v*), *w*, they were often spelt *connen*, *conne*, *con*; the pronunciation is however proved by numerous rimes with *sonne*, *sonne*, *son* (= *son*), *sonne*, *son* (= *sun*), *yronne* (= *y-run*), *wonne*, *won* (OE. *munian*), etc. The form of the 1st and 3rd sing. *I can*, *he can*, also varied from OE. times with *con* (*cun*), the regular Old WS. type (see Sievers *AgS. Gramm.* § 65). *I con* (in *Cast. Love* 1071, riming with *for-pon*) is found for *I can* in some texts even after 1400; but long before this *can* prevailed as the midland and northern form, at least in senses 1 and 2. The vowel-type of the 1st and 3rd sing. pres. ind. was gradually extended to the 2nd sing. (*cunest*, *canst*), the plural (*we cun*, *can*), the conj. pres., and the infim. (*cun*, *can*)—the last in Standard Eng. only from end of 15th c. The *u* forms thus remained intact only in the pple. and vbl. sb. *CUNNING*, q.v. About the same time a differentiation of forms and senses became manifest: *can* became established in sense 2 'to be able', and predominant in sense 1 'to know'; but *cun*, *con*, were retained and extended to all parts in sense 3 'to learn', and the phrase *to cun* or *con* thanks, sense 4. This *cun*, *con*, was mainly the representative of ME. *cunne* or *cunne* from OE. *cunni-* (= *kun*); but in part it represented ME. *con*, from OE. *cun*, for *can* (= *kpn*); hence it survived in two forms, *cun*, which is still common dialectally in 'to cun thanks', and *con*, which was the form in literary favour, both in the obs. 'to cun thanks', and the still existing sense 'to con or learn a lesson'. This *con* is not a mere spelling variant of *cun*, as ME. *conne* was of *cunne*; but, from Spenser onward, *con* rimes with *on*, *conned* with *found*, which is still the received pronunciation. The original pa. t. was *cilde*, *couthie*, *coud*, *could* (see *CAN* *v.* 1); but already in 14th c. in the phrase *to cun thanks*, sense 4, we find a pa. t. *cunde*, *conned*, with corresp. pa. pple.; at the differentiation of forms this was associated with *cun*, *con*, leaving *coud*, *could* to *CAN* *v.*, so that *CON* is now a regular weak verb *con*, *connest*, *conneth*, *cons*, *conned*. Thus there remains no consciousness of connexion between *can* to be able, and *con* to learn. The earlier quotations however overlap the ground covered by *CAN* *v.* 1, and are given as supplementary to those under that word, and introductory to the later use of *con*, *cun*.

|| **Con**, *prep.* Italian:—*L. cum* with, appearing in certain phrases, as *CON AMORE*, q.v.; esp. in musical directions,

e.g. *con affetto* with feeling, *con brio* with spirit and force, *con delicatezza* with delicacy, *con delirio* with frenzy, *con espressione* with expression, *con fuoco* with fire, *con moto* with spirited movement, *con spirito* with spirit, etc.

**Con-** prefix, of Latin origin. The form assumed by the Latin preposition *com* (in classical L., as a separate word, *cum*) before all consonants except the labials, *b*, *p*, and (in later times) *c*, as *concutere*, *condonare*, *confutare*, *congruere*, *conjurare*, *conquirere*, *consistere*, *conspicere*, *constare*, *contrahere*, *convincere*. In earlier times it was also used before *l*, as *conloquium*; but here it was in later times always assimilated, as *colloquium*, and so in the modern langs. On the other hand it was not used in classical L. before *n* (e.g. *conditus*, *conubium*, etc.), but has been introduced subsequently, as *conatus*, *conubium*, and this spelling is followed in English. For meaning, see *COM*.

**Con-** occurs in compounds formed in Latin, and that have come into English through French, or (in later times) directly. Also, in words formed on the analogy of these, and sometimes in casual combinations, as *conspicuous*, where, however, *Co-* is the usual prefix: hybrids, frequent in *co-*, are rare with *con-*: cf. *con-brother*, *con-truth*.

In OF. *con-* before *v* was often reduced to *co-*, *cu-*, *cui-*, as in *covenable*, *covenant*, *coveiler*, *coveilus*, etc., in which form these words were taken into English. Following later French, some of these were afterwards altered back to *con-*, as *convenable*, *convent* (but *Convent Garden*, *F. convent*); others retain *co-*, as *covenant*, *covet*, *covetous*, against mod. F. *convenant*, *convoiler*, *convoiteux*.

CONCEPTUALISM (*kŋseptjuəlɪzəm*). [mod. f. prec. + -ISM: in F. *conceptualisme*.]

1. The scholastic doctrine that universals (genera and species) exist as mental concepts (only); a compromise between Realism which attributed to them real existence, and Nominalism which made them mere names. (Usually considered to be a modified or differently stated form of Nominalism.)

1837-8 SIR W. HAMILTON *Reid's Wks.* 406 note, Abelard... held a doctrine intermediate between absolute Nominalism and Realism, corresponding to the opinion since called Conceptualism. 1867 LEWIS *Hist. Philol.* II. 29 This

reality of conceptions, which is the point advanced in Conceptualism. 1875 JOWETT *Plato* (ed. 2) IV. 132 Neither realism is the truth, nor nominalism is the truth, but conceptualism.

2. The psychological doctrine that the mind is capable of forming an idea (i.e. mental image) corresponding to the abstract and general term: held by, or attributed to, Locke and other English philosophers.

c 1837 HAMILTON *Metaph.* (1859) II. xxv. 296 The doctrine of Nominalism has been embraced by Hobbes, Berkeley, Hume, Principal Campbell, and Mr. Stewart; while Conceptualism has found favour with Locke, Reid, and Brown.

F. *conceptualiste*).] One who holds the doctrine of CONCEPTUALISM (in sense 1 or 2): esp. in *History of Philosophy*, applied to those who held opinions intermediate between those of the Realists and the Nominalists. Also, applied by Mill to one who holds that Logic is exclusively concerned with concepts.

1785 REID *Int. Powers* v. vi. Wks. 406/1 That universality which the Realists held to be in things themselves, Nominalists in names alone, they [a third party] held to be... in our conceptions. On this account they were called Conceptualists. c 1837 HAMILTON *Lect. Metaph.* (1859) II. xxxvi. 326 The older Conceptualists [e.g. Locke, etc.] assert that it is possible to conceive a triangle neither equilateral nor rectangular,—but both at once. 1846 MILL *Logic* i. vi. § 1 The opinion of the Conceptualists, that a proposition is the expression of a relation between two ideas. *Ibid.* i. vi. § 3 note. Where a Conceptualist says that a name or a proposition expresses our Idea of a thing, I should generally say (instead of our Idea) our Knowledge, or Belief, concerning the thing itself. 1855 MILMAN *Lat. Chr.* (1872) IV. 365 John of Salisbury, in his Polycraticus, is a manifest, if not avowed Conceptualist.

**Concert** (kɒnsə't), v. [ad. f. *concertare* (16th c.), ad. It. *concertare* to proportion or accord together, to agree or tune together, to sing or play in concert.

The Italian is identified by Diez with *L. concertare* intr., to contend zealously, dispute, debate. Such a change of sense might conceivably come about through an intermediate 'argue out, settle by debate', whence 'come to terms, arrange terms'; but evidence is wanting. Florio has, in 16th c. It., *concerto, concertare*, as parallel forms of *concerto, concertare*; these (if real words) point to *L. \*concertare* freq. of *conserere* 'to join or fit together, connect'; the same origin has been claimed by Spanish etymologists for Sp. *concertar* which has among other senses 'to mend a thing broken'. But here the phonetic change is unexplained. Already in 16th c. It. *concerto* was associated in the musical sense with *concerto* (Concert); Florio, 1598, gives *concerto* merely with a cross-reference to *concerto*. Hence a conjecture that *concerto, concertare* were perversions of *concerto, concertare*, under the influence of *concerto*: but what then of Sp. *concertar*?

In Eng. used by Barret, from It., in 1598; app. not otherwise in use till taken from Fr. nearly a century later.]

† 1. *trans.* To bring to agreement or unity; to unite. *Obs.*

4. Applied by the early logicians and grammarians to a quality viewed (as it is actually found) *concreted* or adherent to a substance, and so to the word expressing a quality so considered, viz. the adjective, in contradistinction to the quality as mentally abstracted or withdrawn from substance and expressed by an abstract noun: thus *white* (paper, hat, horse) is the concrete quality or quality in the concrete, *whiteness*, the abstract quality or quality in the abstract; *seven* (men, days, etc.) is a *concrete number*, as opposed to the number 7 in the abstract.

Afterwards *concrete* was extended also to substantives involving attributes, as *fool, sage, hero*, and has finally been applied by some grammarians to all substantives not abstract, i.e. all those denoting 'things' as distinguished from qualities, states, and actions. The logical and grammatical uses have thus tended to fall asunder and even to become contradictory; some writers on Logic therefore disuse the term *concrete* entirely: see *quot.* 1887. In this Dictionary, *concr.* is prefixed to those senses in which substantives originally abstract come to be used as names of 'things'; e.g. *crossing* vbl. sb., i.e. abstract n. of action, *concr. a crossing* in a street, on a railway, etc.

From an early period used as a quasi-sb., a *concrete* (sc. term).

But these are not always noun adjectives... a fool, a knave, a philosopher, and many other concretes are substantives. 1846 MILL *Logic* i. ii. § 4 A concrete name is a name which stands for a thing; an abstract name is a name which stands for an attribute of a thing. 1851 MANSEL *Proleg. (ed. 9) 15 Nothing has been said above of the common distinction between abstract and concrete terms. I have availed myself of the expression 'abstract term', but avoided, as too wide to be of practical service, the contrasted expression 'concrete term'. Concrete terms include what I have called attributives, as well as singular, collective, and common terms.

Dial.* s. v., The Scotists maintain that it is possible for man in his natural state so to live as to deserve the (Grace of God, by which he may be enabled to obtain salvation; this natural fitness (*congruitas*) for grace, being such as to oblige the Deity to grant it. Such is the merit of congruity. The Thomists, on the other hand, contend that man, by the divine assistance, is capable of so living as to merit eternal life, to be worthy (*condignus*) of it in the sight of God. In this hypothesis the question of previous preparation for the grace which enables him to be worthy, is not introduced. This is the merit of condignity.

I. The geometrical figure.

1. A solid figure or body, of which the base is a circle, and the summit a point, and every point in the intervening surface is in a straight line between the vertex and the circumference of the base.

Called a *right circular cone* when the vertex is on the perpendicular to the centre of the base; an *oblique cone*, when it lies without it.

1570 BILLINGSLEY *Euclid* xi. xvi. 317 A cone is a solide or bodely figure which is made, when one of the sides of a rectangle triangle, which containe the right angle, abiding fixed, the triangle is moved about. 1646 SIR T. 5. *Ecl.* A rite administered to baptized persons in various Christian Churches; formerly called 'bishopsing'.

In the Roman and Greek Churches, always reckoned one of the seven sacraments, and in these and in the Church of England held to convey or be the vehicle of special grace which 'confirms' or strengthens the recipient for the practice of the Christian faith.

Down to the 13th c. confirmation was administered immediately or soon after baptism (as still in the Greek Church); since that time, it has been usually deferred in the Western Churches till the 'years of discretion'. In the Church of England and some other Reformed Churches, candidates are required publicly and personally to renew, ratify, and 'confirm' their baptismal vows (see CONFIRM 2, *quots.* 1459), and are then admitted to the full privileges of the Church.

**Confuse** (kɒnfjuːz), *v.* [A passive pple. *confused* is found from 14th c.; but the present stem and active voice are only of modern use, having been formerly expressed by CONFOUND: cf. F. *confondre*, *confus*, L. *confundere*, *confusus*. The vb. is entered by Bailey (folio) 1730-6, and thence by Johnson, but there are no examples, exc. of the pa. pple., in J., Todd, or Richardson. The pple. was thus evidently an English adaptation of F. *confus* or L. *confusus-us*, with the native ppl. ending -ED, and the present stem a much later inference from it.

Hence, it may be said that *confound* had formerly 3 pa. pples., *confuso*, *confused*, *confounded*; the first two only passive, the last used also in forming the perfect active: of these *confuse* became at last solely an adjective; *confused* has given origin to a separate verb, *confuse*, of which it is now the pa. pple.; *confounded* remains the sole pa. pple. of *confound*.]

[The phonology and final stress in verse show this word to be of French origin. In all probability *can-gun* in the earliest quot. is the same word, and stands for *can-gun* or *can-jun* (g for j being not infrequent in ME., cf. the form *kongon*), repr. an ONF. \**can-gun*, *can-gion*: -late L. *cambio*, *cambionem* (cited in Grimm *Deut. The ME. forms have suffered at the hands of bad copyists and editors, who have turned *conjon* into *conjon*, *conion* (= *conjon*) into *conion*, with other blundered spellings. A derivation from *cambio* fits the sense, for changelings were popularly held to grow up dwarfs or deformed in body (cf. sense 1), and deficient in intellect (sense 2), and to be called one was a grievous insult (senses 3, 4). The difficulties are (x) the apparent rarity of the word in Fr., where the only

instance yet cited is one of 1427 in Du Cange, repeated by Godefroy, under the form *changan* 'terme injurieux', which is app. the central F. form, standing for *changelon*, *changan*; (2) the A.Fr. or early ME. change of *can-* to *con-*; this took place before the retraction of the stress from the final syllable, and may have been owing to association with the prefix *con-*.]

To Kersey is due the statement (or suggestion) that the word was originally *congrus* or F. *congrès*, subsequently treated as a plural, with singular *congr*. But it is to be noted that in most of the quotes, *conger* is applied to the association, not to a member of it. Bailey refers it tentatively to *conger* the fish, which may indicate a contemporary joke.

b. *Acad.* A general assembly of the members of a University, or of such of them as possess certain specified qualifications.

At Cambridge an assembly or meeting of the Senate. At Oxford a meeting of the Vice-Chancellor, Proctors, and 'Regent Masters' (*Ancient House of Congregation*), to grant or confer degrees, etc.; also, since 1854, the name of the whole body of resident Masters, Doctors, and Professors (*Congregation of the University*), and of a regular meeting of this body, constituting the chief deliberative assembly of the University. (The intention of the Act of 1854 was to enlarge the constitution and powers of the 'Ancient House of Congregation': it was held however by the legists that, instead of doing so, it had created a new body, 'the Congregation of the University', leaving the 'Ancient House' intact. There are therefore now two Congregations in the University.)

5. In English versions of the Bible, applied in the O.T. to the collective body of the Israelites in the wilderness, and to a public solemn assembly of the people or nation; so *congregation of the Lord*, etc.

Here it is put for two distinct Heb. words קהל *qāhāl* and קהל *qāhāl*, the original difference between which was app. that קהל meant the collective body or community, and קהל an actual assembly that had met and would disperse again; but in application the two were necessarily often identical; the assembly consisted of or represented the community. By the LXX קהל is, with rare exceptions, rendered συναγωγή; קהל is rendered γοιτις *ἐκκλησία*, 37 times συναγωγή, 10 times by ὄχλος or other word. The Vulgate has for both words a great variety of renderings, e.g. *multitudo*, *cætus*, *populus*, *turba*, *congregatio* for both; also *plebs*, *vulgus*, *globus*, *caterva*, *synagoga* for קהל; *convocatio*, *ecclesia*, *exercitus* for קהל. Wyclif has *congregacioun* only in the few places in which *congregatio* appears in the Vulgate; but in the 16th c. versions, *congregation* became the predominant rendering of both words; in the 1611 version it occurs 124 times for קהל, 86 times for קהל. (In a relatively small number of cases, both words are rendered *company*, and *assembly*.) The Revised Version of 1885 has distinguished קהל and קהל in the Septuagint as *congregation* and *assembly*, but elsewhere has usually continued the indiscriminate use of 'congregation' found in the earlier version.

1382 WYCLIF *Nun.* i. 2 Take 3e sowme of alle the congregacioun of the sones of Yrael. 1535 COVERDALE *Micha* II. 5 No man to detuyle the thy porcion, in the congregacion of the Lorde. 1611 BIBLE *Lev.* iv. 21 It is a sinne offering for the Congregation [1885 *Rev. b. Hence, in O. T. language, in certain phrases, e.g. *the congregation of saints*, of the wicked, of evildoers, of hypocrites, etc. = whole body, company.

1382 WYCLIF *Ps.* cxlij. 1 In counsell of riȝtwis men and congregacioun [1388 in the counsel and congregacioun of iust men]. 1535 COVERDALE *Ps.* cxvlij. 5, I hate the congregacion of the wicked [Wyclif churche of wariende men]. *Ibid.* cxix. 6r The congregacions of the vngodly haue robbed me. *Ibid.* cxlix. 1 Let the congregacion of sayntes prayse hym [Wyclif churche of halewis]. 1539 BIBLE (Great) *Ps.* lxxxi. 1 God standeth in the congregacion of princes [lxx. *synagoga*, Vulg. *synagoga*, Wyclif *synagoge* of godis]. 1611 BIBLE *Job* xv. 34 The congregacion of hypocrites shall be desolate.

6. Used by Tindale to translate *ἐκκλησία* in the N. T., and much used by the Eng. Reformers of the 16th c. instead of CHURCH (on account of the current restriction of the latter term to the clergy or clerical order):

[*Cf.* 1529 MORE *Dynalog* II. viii. H. BROWN *On 39 Articles* Art. x. It being agreeable to His nature and goodness to bestow grace on those who make such [unassisted] efforts. Endeavours then on the part of man to attain to godliness were by the schoolmen said to deserve grace *de congruo*, of congruity.

b. (Doctrine of Grace.) The suitability or adaptation of divine grace to the character, nature, disposition, or other circumstances of the person called, to which some theologians attribute its efficacy (see CONGRUISM); 'the efficacy of grace which acts while at the same time preserving the action of the free will' (Littre). A term belonging to the great controversy on Grace between the Dominicans and the Jesuits, which began c. 1580.
